

MEETING/ CONFERENCE ROOM

IMPROVED EFFICIENCY WITHIN THE WORKING ENVIRONMENT BY INTRODUCING SMARTER WAYS OF WORKING

Architectural Outfitting
Specialist Services

Client
Britannia Operator Ltd

Location
Britannia Platform

01

01 - Bilfinger Salamis UK's new design introduced smarter ways of working

The Challenge

To reconfigure the existing office layout to create a more efficient working environment through improved ergonomics, communications and grouping of personnel.

02

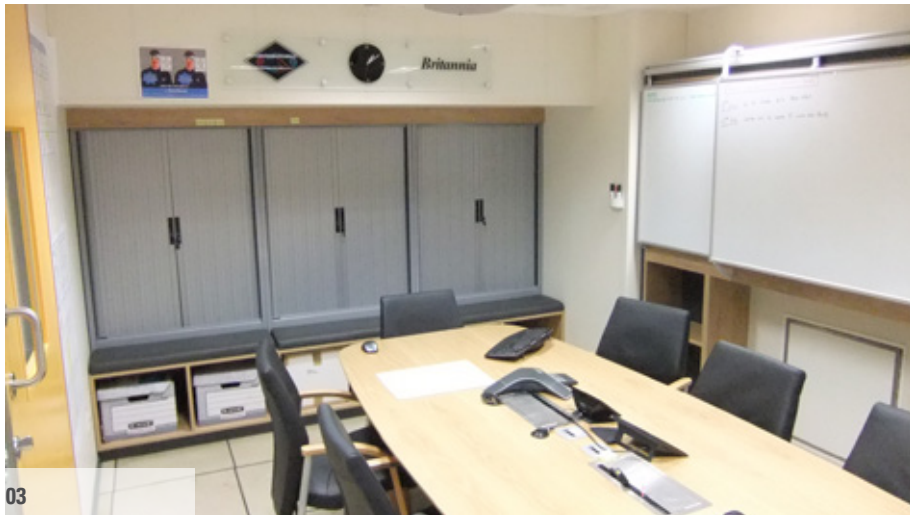

02 - The existing office layout

The Solution

Relocation of a number of office personnel to new locations, creation of a bespoke room for meetings and video conferencing.

Combination of traditional meeting room equipment, storage, whiteboards, wall space and telephone points intertwined with the latest technology in smart TV's/boards, video-conferencing, visualizer mats and data points for ease of tablet and laptop usage.

03

03 - The new layout allowed the room to be better utilised for various functions

The Outcome

Bilfinger Salmis delivered a highly efficient, comfortable and technical multi-purpose conference room, encouraging enhanced team working and better communications.

04

04 - The spacious design, and multi-purpose functions encourage enhanced team working
