

ADD ANOTHER 20 YEARS

Extend pipe lifetime with LOCTITE Composite Repair System

LOCTITE Composite Repair System is a fast and economical alternative to pipe replacement. The innovative repair system reinforces and seals pipes designed for high pressure, temperature and chemical resistance. It is fully certified by DNV GL according to ISO/TS 24817.

Application areas

- Repair system for steel pipes, pipelines and tanks
- For inside and outside corrosion
- Equipment subject to chemical attack or mechanical wear
- Complex geometries: bends, tees, reducers and flanges
- Oil & Gas industry, refineries and petrochemical plants, power plants, water utilities, etc.

Benefits

- Fast and economical repair solution
- Increase pipe lifetime by up to 20 years
- No need to replace pipes
- In situ repair without interruption of operations
- Tailor-made repair solutions including specific calculations of repair designs
- Certified applicator and installer training program

LOCTITE Composite Repair System

The all-in-one solution with materials for surface preparation, reinforcement and topcoat consists of:

ISO/TS 24817 certified by DNV GL
